

Gutter for low profile Hydropad Model 4GS787

The patented side gutter in the above ground steel Hydropad containment rack collects wash water and solids generated in the washing process. With a side gutter, wash rack cleaning can take place anytime without interfering with your wash requirements.

Depending on your needs, there are several options for solids liquid separation and cleaning.

- Manual shovel out of gutter
- Flip screens for debris separation and easy removal
- Drag conveyor automatic solids removal
- Skid Steer drive in clean out ([Model 2ZV237](#))

Standard flat bottom gutter

Gutter with flip screen

*Gutter, flat bottom with flip screen
Gutter with conveyor extension*
