Hydro Engineering, Inc.  
865 West 2600 South  
Salt Lake City, Utah 84119

Dear Mike,

We, at Silkworm, are very happy with the performance of our Hydro Engineering AutoBlaster reclaiming machine.

It checks all the boxes for us: Improved quality, increased output, lower labor costs, lower chemical use, ease of use, and a safer work environment.

One Silkworm team member is currently able to reclaim over 150-23"x36" frames in an 8-hour shift. That includes rounding up frames from the press areas and de-taping. Training and cross training of team members is also an easy task with this piece of equipment.

Silkworm has used many reclaiming methods and machines over the past 40 years, and the AutoBlaster is by far the best value we have experienced.

Sincerely,

Bob Chambers, President
